WHEN ASKING THE CREW THEIR THOUGHTS OF THE LAST YEAR

Professional growth with
the challenges of the last
year

Less open shifts meaning
less burn out

With rotating schedules
and the raises, it brought
experienced staff
members

More opportunities
within the department
for advancement

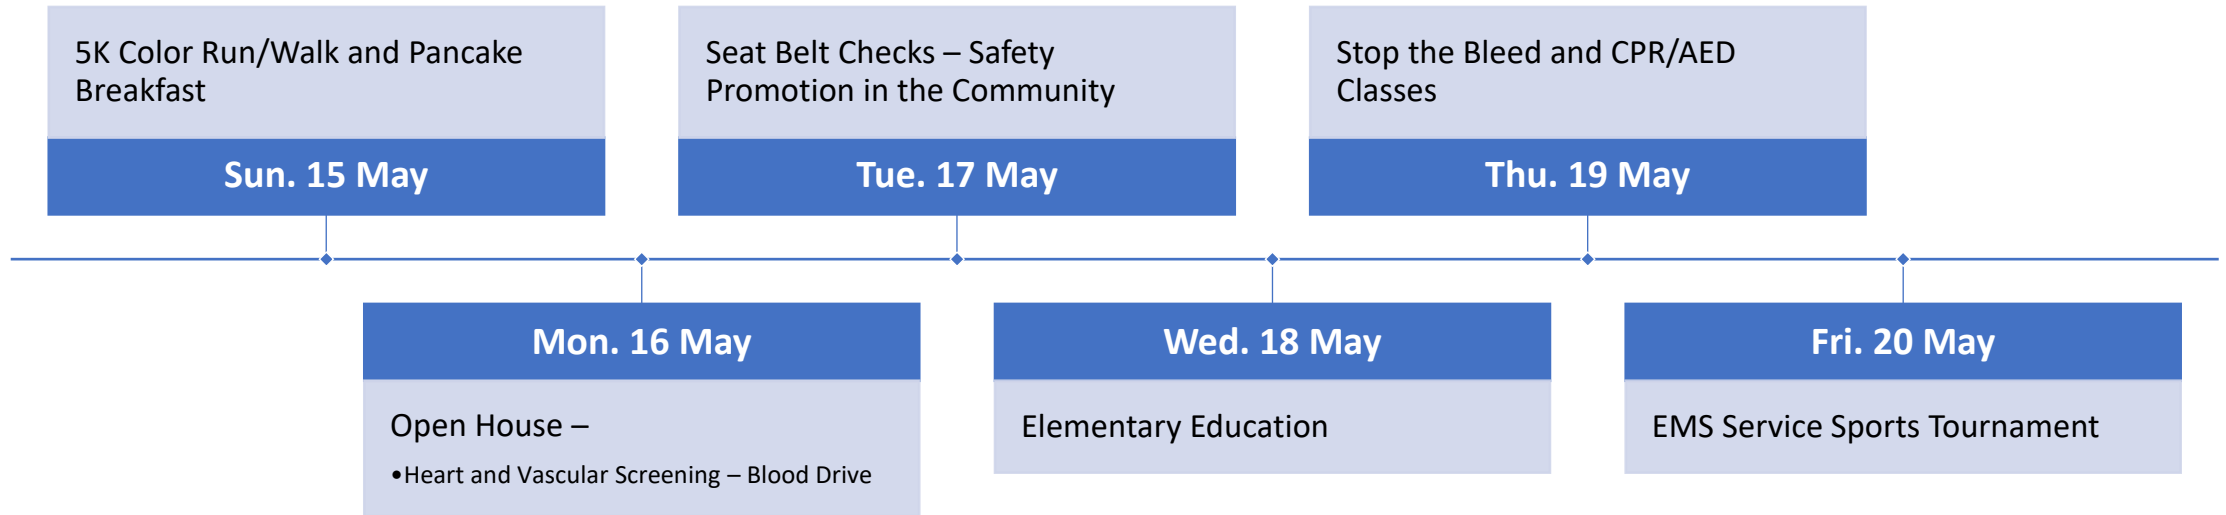

Despite all the
challenges our moral has
stayed high

Great to have reliable
ambulances that we do
not have to worry what
is going to break next

We are one of the more
critical trained transport
services in the area
besides Life Flight

More training
opportunities than ever
before

EMS WEEK MAY 15TH – 20TH

Sturgis Ambulance
Rising to the
Challenge
